### Please join us to learn about:

- Anne Peters' and Peter Ornstein's recent experiences conducting workshops and meeting with others in the West Bank and Israel relating to electronic waste management.
- Peter's visit to the ongoing development of the constructed wetlands project in Al Ubeidyeh in the Kidron/Nar Basin.

We will discuss plans for following up on these and other potential SIPP projects.

**Recycle your electronic waste:** We are partnering with [Techno-Rescue](#), a local electronics recycler with R2 Certification, to accept your old electronics (televisions must be 42" or smaller) at the event. Techno-Rescue will securely delete data on old laptop computers. If you are dropping off old electronics, we suggest a small donation to SIPP consistent with fees paid to electronics recyclers.
