You are invited to an important fundraising event sponsored by Sustainable Israeli-Palestinian Projects (SIPP).

**Please join us for dessert and wine at the home of Robert and Tara Winer**

**1510 Columbine  
Boulder, Colorado 80302  
Thursday, August 13, 2015  
7:00 to 9:00 PM**

We would appreciate your [RSVP](#) no later than Monday, August, 10, 2015.

Liora Meron, Israeli architect and planner. Master and Implementation Planner for the Kidron/Wadi Al Nar Trans- Boundary River Basin.

Eric Lombardi, International expert and consultant on recycling and Zero Waste Systems. Former Executive Director of Boulder's Eco-Cycle.

At this event you will learn from Liora Meron about the pollution in the historic Kidron/ Wadi Al Nar Trans-Boundary River Basin which runs from Jerusalem to the Dead Sea. You will have the opportunity to assist SIPP in its effort to send Eric Lombardi to the Kidron Valley to advise Palestinians and Israelis on how to adopt and implement a Zero Waste goal for their recycling and composting program. Eric will also explain the potential for jobs, recreation, historic site tours and other benefits that can result from that approach to environmental cleanup.

**[Suggested Donation: \\$50 or more per person, but everyone is welcome.](#)**

You may donate in advance of the event by check payable and mailed to:  
SIPP, P.O. Box 335, Boulder, CO 80306-0335

Garbage dumped in the Kidron Valley

Solid Waste in the Kidron River

Through SIPP, members of our community are working on a project to assist local Israelis and Palestinians in a joint effort to clean up their shared environment. By contributing to this effort, you can help develop trust and respect among people whose conflict has led to distrust and fear. In this way you will be a part of a local approach to peace-making in the Israeli/ Palestinian conflict.

By helping Israelis and Palestinians work together to turn a garbage dumping ground into a pristine tourist attraction, we can do our part to foster peace, minimize waste, and restore a healthy natural environment in this part of the Middle East.
